Bringing knowledge to the world with our scientific community

About Us

Labtech Innovations, a venture of the Labtech Innovation Educational Research and Welfare Foundation, is a leading organization dedicated to advancing education, research, and intellectual property (IP). Our services include research consultancy, IP support (patent drafting, filing, and strategy), and publishing assistance in high-quality, indexed journals such as Scopus, Web of Science, and UGC Care List. We also specialize in training programs, R&D partnerships, and setting up incubation labs.

Renowned for organizing over 80+ conferences and publishing more than 25,000 research papers, we excel at conducting international conferences, workshops and FDPs and fostering international collaborations.
